Club insurance renewal has been received. It must be returned by the 31<sup>st</sup> of Dec.

AMA – Bill Northrop expounded on the latest in AMA undevelopment. After trying to keep Cliff Weisick off the ballot for Pres. at the last NATs in Chicago the AMA seems to be doing its best to make it difficult to vote at all in the coming elections. The officer ballot is a hard to find item at the bottom of a page hidden in the Nov, Dec American Modeler.

The ballot is due by Nov 15<sup>th</sup> and must be accompanied by the IBM addressograph label from the cover is proof of membership. As of this date Oct 17, less than a month before the ballot must be mailed, none of the members had received his copy. Members who are so lucky as to get the ballot are urged to vote for Weisicki. It has been said that he has 3000 members from the West Coast alone backing him so he should win. There is one catch – The ballots will be counted not by the AMA but by a disinterested party, namely the NAA which means Ed Sweeney. If Wiesiek is not elected this may mean the rise of NRCA, and the secession of RC modelers from the AMA.

On this disgruntling note, the meeting was then adjourned.

The next meeting will be held on Tues. Nov. 1<sup>st</sup>.
